

## How to use your GRiD documentation

### ▶ To set up and care for your GRiD Compass

Read **GRiD Compass Owner's Guide** shipped in the box with your GRiD Compass. Put this in your Management Tools binder; it fits in the first tab position.

### ▶ To learn how to use the GRiD Management Tools

Read **Getting Started with the GRiD Compass** shipped in the box with your GRiD Compass. It teaches you the GRiD system basics and gives you a quick overview of:

- GRiDPlan
- GRiDPlot
- GRiDManager
- GRiDWrite
- GRiDFile
- GRiDTerm

### ▶ To upgrade your GRiD system from Version 2.0 to 3.0

Follow the instructions in the **2.0 to 3.0 Upgrade Notes**. This applies only to those who have used an earlier version of the GRiD Management Tools. If you are a new customer, you do not need to read the Upgrade notes.

### ▶ To look up reference information about the GRiD Management Tools

Choose the document that best fits your needs—shipped in this Management Tools binder.

#### Pocket Reference Card

Lists the GRiD common commands and gives a graphic explanation of the File form.

#### Command Summary

Summarizes each command, each item on forms and menus, and GRiDPlan functions; lists additional keystroke characters.

#### Management Tools Reference

Gives detailed reference information for these applications:

- GRiDManager
- GRiDFile
- GRiDPlan
- GRiDPlot
- GRiDPrint
- GRiDReformat
- GRiDTerm
- GRiDWrite
